Developmental conflict: does it transitional ?!

Average state of HNV farmland subtypes in the CIS region

Country	Grasslands	Secondary wetlands	Forestland enclaves	Biotopes of special agro-origin	Average for 4 types	Numbers of subtypes present in the country
Russia						19
Ukraine						15
Belarus						11
Moldova						11
Georgia						12
Armenia						8
Azerbaijan						16
Kazakhstan						9
Uzbekistan						14
Kyrgyzstan						9
Tajikistan						7

  - bad;
  | - satisfactory;
  - good;
  - very good

Main problems:

- Lack of legislation;
- Lack of compliance mechanisms;
- Shadow markets (?);
- Lack of agricultural policies;
- National idea: political games instead notion on heritage for future generations;
- Climate change (Caucasus, mountain regions in CA, Moldova and southern Ukraine);
- Human population growth in CA.
